Subject: RE: FEMA Region III SITREP #12: West Virginia Chemical Spill

OSC Laura Casillas called this morning and asked if we wanted to be on the conference calls on Mondays, Wednesdays and Fridays @ 9am for the situation in WV as well as the status of our planned inspection. I said we would like to be on the call and would provide her the inspection status when determined. I asked her to provide info for the conference calls.

Joan,

Spoke with Adam at OSHA and informed him of what we talked about. He informed me that OSHA already initiated and are there on-site. They went there on Friday and are going back there today. He is not sure how much longer they will be there.

The Area Director (Prentice Klein) who we have spoken with before is who we need to call to find out exactly what's happening on the ground with OSHA.

Adam also passed along the FEMA SitRep (Situational Report) about the incident.
